## LED Solar Lighting

### Solar Road Light SB60016

Type	SB60016
Size	H3800mm
Colour	Natural Colour
Lighting source	Energy saving lamp(5W)/LED(6W)
Rechargeable battery	Pb Acid rechargeable battery (12V/18AH) circulation:500times
Solar Panel	Polycrystalline silicone Battery (20W/18V) Lifespan: 15 years
Lighting duration	Sunny day:6-10 hrs Dark cloudy day:3days
Luminous flux	Energy saving lamp 275Lm/LED150Lm
Ambient Temperature	-20 - 50 Centigrade degree
Material	The steel pole is powder coated after heat-plating zinc
Grade of Protection	IP55
Wind Resistibility	More than100km/h
Weight	40kg
Volume (package incl.)	0.885m3
Packaging sizes	341cm X 41cm X 41cm, 65cm X 55cm X 6cm, 61cm X 69cm X 69cm

### Solar Road Light SLRJY03

Model, Specification	SLRJY03, H3200mm
Solar Panel	18V/20W polycrystalline
Battery	12V/12AH maintenance-free lead-acid battery
Controller	Digital program, automatic discharge and auto turn on-off
Lighting source	Super high brightness LED yellow
Brightness	2000MCD
Working time	6 - 8hours

**714, Cyberport 1, 100 Victoria Road, Pok Fu Lam, Hong Kong**

## LED Solar Lighting

### Solar Road Light SLRJY02

Model, Specification	SLRJY02, H8200mm
Solar Panel	18V/20W polycrystalline
Battery	12V/12AH maintenance-free battery
Controller	Digital program, automatic discharge and auto turn on-off
Lighting source	Energy saving 12V/7W × 2 lamps
Brightness	3000MCD
Working time	6 - 8hours

### Solar Road Light SLRJY01

Model, Specification	SLRJY01, 3200mm
Solar Panel	30W polycrystalline
Battery	32AH maintenance-free lead-acid battery
Controller	Digital program automatic discharge protection
Lighting source	Super high brightness LED 252pcs
Brightness	3000MCD
Working time	At 12W lighting for 5 hours, auto switch to 4W lighting until dawn - with a 3 day charge

714, Cyberport 1, 100 Victoria Road, Pok Fu Lam, Hong Kong
